

Ansif P. Ibrahimkutty

Software Developer & Systems Architect

linkedin.com/in/ansifpi | github.com/ansifi

PROFESSIONAL PROFILE

Software developer and systems architect with ~20 years building production software across Ruby on Rails, Redmine, C++/Qt, Python, Laravel, and full-stack web platforms. Co-founder of Sevendyne Consultancy Services LLP (2016). Currently a Ruby on Rails / Redmine developer for a Belgium marine data analytics client. Previously built Sevendyne's HR payroll and accounts platform.

TECHNICAL EXPERTISE

- Languages & Frameworks: Ruby on Rails, Redmine, Spree, C++/Qt, Python, Django, Flask, Laravel, PHP, CodeIgniter, Node.js, Spring Boot, Next.js, Vue.js, Angular, React, VC++
- Data & AI Systems: OpenAI API integration, automated scraping/ETL pipelines, PostgreSQL, MySQL, SQL Server, SQLite
- Infrastructure & DevOps: GCP Cloud Run, Docker, Nginx, Cloud Build, Kaniko, Artifact Registry, Embedded Linux, Sockets, IPC
- Domain Strengths: Redmine plugins, full-stack platform design, real-time/low-latency systems, embedded automotive software, team building and operations

CORE EXPERIENCE & PROJECTS

Co-Founder

Sevendyne Consultancy Services LLP | Sep 2016 - Present | Kochi, Hybrid

- Co-founded Sevendyne as the vehicle for research and development work; the entity now also provides client staffing and payroll services alongside project delivery.

Team Building, Operations Management, Project Delivery

Ruby on Rails / Redmine Developer - Belgium Marine Data Analytics Client

Sevendyne | late Sep 2026 - Present | Kochi, Hybrid

- Working in the Redmine codebase for a marine data analytics company in Belgium: plugin development, issue and time workflows, code management, and related Rails / Redmine platform work.

Ruby on Rails, Redmine, plugins

Software Developer - Payroll & Accounts (Sevendyne)

Sevendyne | Jan 2025 - mid Sep 2026 | Kochi, Hybrid

- Designed and shipped Sevendyne's internal HR payroll and accounts platform: client and staff records, invoices, consultant payouts, bank ledger, and India compliance (GST / PF / ESIC / TDS).

Django, Next.js, SQLite, India payroll

AI / Fullstack Developer - German Analytical Client

Sevendyne | May 2022 - Sep 2024 | Kochi, Hybrid

- Engineered a Ruby on Rails/Spree catalogue processor paired with Python + OpenAI automation for structured data extraction (CSR Informatics GmbH, Germany).
- Built multi-site performance dashboards on Spring Boot and Angular with Apache eCharts.

- Designed Python REST API frameworks for supply-chain what-if simulation models (Quantlyf, UAE).

Python, Ruby on Rails, Spree, Angular, OpenAI, Spring Boot, Apache eCharts

Fullstack Developer - CodeIgniter Platform (Fintech Client)

Sevendyne | Sep 2021 - May 2022 | Kochi, India

- Built and maintained a PHP/CodeIgniter web platform for an e-commerce client, including backend logic and front-end integration.

PHP, CodeIgniter

Fullstack Developer - Laravel Platform (Logistics Client)

Sevendyne | Sep 2019 - Apr 2021 | Kochi, India

- Delivered a fullstack Laravel platform end to end for a logistics client, covering backend architecture and application logic.

Laravel, PHP, MySQL

Research Developer - Code Review Platform (Engineering Tools Client)

Sevendyne | May 2018 - Sep 2019 | Kochi, Remote

- Developed a C++/Qt based code review tool for an engineering tools client.

C++, Qt

Research Developer - Trading System API (Fintech Client)

Sevendyne | Mar 2016 - Sep 2018 | Kottayam, Hybrid

- Built a C++/Qt trading system API handling real-time market data streams for a fintech startup client, delivered directly while co-founding Sevendyne.

C++, Qt, Real-Time Systems

Independent Systems Architect

Self-Employed | Jan 2012 - Sep 2016 | Kottayam, Hybrid

- Engineered a property administration platform (Wise Owl Property Management) using C++ and Webtoolkit (Wt) to service dense tenancy pipelines (2015-2016).

- Built Montal, a 2D game project using C++/Qt covering game state architecture and dynamic UI scaling components (2012-2014).

C++, Qt, Wt

Software Engineer - Automotive HMI & IVI

HCLTech | Feb 2014 - Feb 2015 | Delhi, On-site

- Developed C++/Qt based HMI and IVI (In-Vehicle Infotainment) systems for automotive platforms.

C++, Qt, HMI, IVI, Automotive

Software Engineer

HexoSys Group | Sep 2009 - Sep 2011 | Kuala Lumpur, On-site

- Engineered C++ Qt and VC++ based USB protocol testing applications. Managed complex device protocol debugging (TCP/UDP) for hardware systems.

C++, Qt, VC++, Sockets, Embedded Hardware

Trainee Software Engineer

Integral & UCI Tech | Apr 2007 - Apr 2009 | Kochi, On-site

- Began professional software career writing VC++ systems automation tools, custom CAD geometric format parsers, and low-level USB peripheral modeling applications (Pathmodeler).

VC++, CAD Parsers, Embedded Tools

EDUCATION

B.Tech in Computer Science & Engineering

TKM College of Engineering, Kerala University | 2002 - 2006
